EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The withdrawn claims 46-58 have been cancelled from further consideration.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 38, 39, 43, 45 and 59 are allowable because the prior art of record fails to disclose or suggest or teach the recited DX geothermal heat pump in a heating mode comprising sub-surface refrigerant tubing positioned to allow primary geothermal heat transfer directly to refrigerant fluid circulating in the sub-surface refrigerant tubing, system further comprising a supplemental solar heating system including a solar heat collector fluidly connected to a solar heat to direct expansion system (see claims 38 and 59); the solar heat is transferred by the solar heat to direct expansion system refrigerant fluid heat exchanger to refrigerant fluid immediately prior to the refrigerant fluid entering the subsurface geothermal heat exchanger (see claims 39 and 45); the solar collector's heat transfer tubing is always sloped in an upward vertical orientation from the bottom of the solar heat collector to the top of the solar heat to direct expansion refrigerant fluid heat exchange means, and wherein the solar collector's heat transfer tubing is always

sloped in a downward vertical orientation from the top of the solar heat to direct expansion refrigerant fluid heat exchange means to the bottom of the solar heat collector (see claim 43).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
